

**BACHERLOR OF ECONOMICS**

International Program

# **PROGRAM INFORMATION**

**ACADAMIC YEAR 2026**

# ABOUT THE FACULTY

## Vision

*Asia's Leading School of Economics for a Sustainable Society*

## Values and Culture

"Visionary – Agile – Excellence – Caring – Transparent – Resilient & Sustainable"

### Visionary

Setting long-term visions and goals, planning the organisation's future with foresight and prudence, embracing change, and fostering innovation.

### Agile

Acting with speed and responsiveness, avoiding procrastination, prioritising effectively, and working with efficiency and enthusiasm.

### Excellence

Striving for the highest standards, continuously improving oneself and one's work, and delivering outcomes that exceed expectations.

### Caring

Attentive to learners and stakeholders, understanding their needs, responding wholeheartedly, and creating positive experiences.

### Transparent

Operating with honesty, openness, accountability, and clear communication, guided by the principles of good governance.

### Resilient & Sustainable

Taking responsibility for society and the environment, fostering balance, ensuring organisational resilience, and promoting long-term sustainable growth.

## Memorable acronym: "KOR TOR POR MOR"

- KOR = Visionary Thinking: Set a long-term vision and goals, take a forward-looking view, plan the organisation's future carefully, stay ready for change, foster innovation.
- TOR = Swift Action: Act promptly, avoid procrastination, be proactive, prioritise effectively, work efficiently.
- POR = Excellence with Transparency and Care: Strive for the highest standards, pursue continuous improvement, communicate clearly, act with honesty, be open and auditable, care for learners and stakeholders.
- MOR = Resilience and Sustainability: Act responsibly towards society and the environment, balance economic, social and environmental considerations, build stable, long-term organisational growth.

## Mission

- To educate future-ready graduates with a strong grounding in economics, robust analytical skills, and leadership to drive sustainable societal change.
- To create and disseminate knowledge and innovation from high-quality, high-impactful economic research that contribute to policy-making and sustainable development.
- To foster the creation and exchange of knowledge through academic services that generate added value for the economy, society, and the environment.

## PROGRAM INFORMATION

### Program Title

Bachelor of Economics Program  
(International Program)

### Degree Title

Bachelor of Economics (B.Econ.)  
(International Program)

### Duration of Study and Credit Requirement

4 years, 8 regular semesters

- Special Problem (Academic) Track 129 credits
- Cooperative Education Track 129 credits

### Tuition Fee

#### • Thai Students

Regular Semester	40,000 Baht
Summer Session	20,000 Baht

#### • Other Nationalities

Regular Semester	60,000 Baht
Summer Session	28,000 Baht

## COURSES FOR COOPERATIVE EDUCATION TRACK

<b>751419 Economic Theory and Entrepreneurship</b>	<b>3 Cr</b>
<b>751420 International Finance</b>	<b>3 Cr</b>
<b>751421 Economics of Investment</b>	<b>3 Cr</b>
<b>751422 Technical Analysis for Investment</b>	<b>3 Cr</b>
<b>751424 Economic Development of Developing Countries</b>	<b>3 Cr</b>
<b>751425 Economic Growth</b>	<b>3 Cr</b>
<b>751427 Economic Planning</b>	<b>3 Cr</b>
<b>751428 Political Economy</b>	<b>3 Cr</b>
<b>751433 Economics of Regulation</b>	<b>3 Cr</b>
<b>751437 Tax System</b>	<b>3 Cr</b>
<b>751440 Labor Economics</b>	<b>3 Cr</b>
<b>751441 Economics of Water Resources</b>	<b>3 Cr</b>
<b>751443 Industrial Economics</b>	<b>3 Cr</b>
<b>751444 Urban Economics</b>	<b>3 Cr</b>
<b>751445 Natural Resource Allocation and Policy</b>	<b>3 Cr</b>
<b>751447 Seminar in Current Economic Problems</b>	<b>3 Cr</b>
<b>751448 Seminar in Global Investment Issues</b>	<b>3 Cr</b>
<b>751451 Health Economics</b>	<b>3 Cr</b>
<b>751452 Economics of Climate Change</b>	<b>3 Cr</b>
<b>751453 Developing Application for Data Analytics in Economics</b>	<b>3 Cr</b>
<b>751455 Economics of the Welfare State</b>	<b>3 Cr</b>
<b>751464 Behavioral Economics in Organizational Finance</b>	<b>3 Cr</b>
<b>751465 Low-Altitude Economics</b>	<b>3 Cr</b>
<b>751471 Economics of Decentralized Finance</b>	<b>3 Cr</b>
<b>751472 Economics of Tokenomics and Non-Fungible Token</b>	<b>3 Cr</b>
<b>Minor Course (If any)</b>	<b>a minimum of 15 Credits</b>
<b>(3) Free Elective</b>	<b>a minimum of 6 Credits</b>
<b>Total</b>	<b>a minimum of 129 Credits</b>

# Recommended study plan Bachelor of Economics (International Program) Cooperative Education Track

## Year 1

Semester 1		credits
126101	Introduction to International Relations	3
206171	General Mathematics 1	3
751101	Principles of Microeconomics	3
.....	A general education course in <b>Language literacy</b> (001102, 001201, 001207, 001208, 001209)	3
.....	A general education course in <b>Creativity and Innovation</b> (603200, 610111, 951100)	3
.....	A general education course in <b>Digital literacy</b> (204100, 261111, 953111)	3
	<b>Total</b>	<b>18</b>

Semester 2		credits
140104	Citizenship	3
751102	Principles of Macroeconomics	3
751209	Introduction to Mathematical Economics	3
.....	A general education course in <b>Language literacy</b> (001102, 001201, 001207, 001208, 001209)	3
.....	<b>Elective Core</b> Course (1)	3
.....	<b>Elective Core</b> Course (2)	3
	<b>Total</b>	<b>18</b>

# Recommended study plan Bachelor of Economics (International Program) Cooperative Education Track

## Year 2

Semester 1		credits
001228	English for Business and Economics	3
208271	Elementary Statistics for Social Sciences 1	3
701100	Elementary Accounting 1	3
751301	Microeconomic Theory 1	3
751308	Macroeconomic Theory 1	3
.....	Elective Core Course (3)	3
	<b>Total</b>	<b>18</b>

Semester 2		credits
208272	Elementary Statistics for Social Sciences 2	3
751302	Microeconomic Theory 2	3
751304	Economic Statistics	3
751309	Macroeconomic Theory 2	3
.....	A general education course in <b>Entrepreneurial Skills</b> (128100, 702101, 703103, 888107, 888109)	3
.....	A <b>elective general education</b> course (009103 or 888102 or 954101 or 154104 or 176100 or 955115)	3
	<b>Total</b>	<b>18</b>

# Recommended study plan Bachelor of Economics (International Program) Cooperative Education Track

## Year 3

Semester 1		credits
751305	Econometrics 1	3
751...	Choose one Major Elective Course from: 751326, 751402, 751442, 751446, 751454	3
751...	Major Elective Course	3
751...	Major Elective Course	3
751...	Major Elective Course	3
751...	Major Elective Course	3
	<b>Total</b>	<b>18</b>

Semester 2		credits
751405	Theory of Economic Development	3
751414	Introduction to Applied Econometrics	3
751...	Major Elective Course	3
751...	Major Elective Course	3
7514...	Major Elective at 400 Level	3
.....	Free Elective	3
	<b>Total</b>	<b>18</b>

# Recommended study plan Bachelor of Economics (International Program) Cooperative Education Track

## Year 4

Semester 1		credits
751306	Communication in Economics	3
751407	Research Methods in Cooperative Education	3
7514..	Major Elective at 400 Level	3
7514..	Major Elective at 400 Level	3
.....	Free Elective	3
	<b>Total</b>	<b>15</b>

Semester 2		credits
751449	Cooperative Education	6
	<b>Total</b>	<b>6</b>

# Course Descriptions

## (1) General education

### 1) Required Courses

#### 1.1) Language Literacy

**001228**

**English for Business and Economics**

Prerequisite: 001101 or 001102 or e-Pro score of no less than B $\bar{t}$ ; or consent of the department

3(3-0-6)

Communication in English in daily life in business and economic contexts and application of English language skills for careers in business and economic contexts

**001102**

**Fundamental English 2**

Prerequisite: None

3(3-0-6)

Communication in English for everyday interactions based on CEFR B1+ in various social and cultural contexts for life - long learning

**001201**

**Critical Reading and Effective Writing**

Prerequisite: 001101 or 001102 or e-Pro score of no less than B $\bar{t}$ ; or consent of the department

3(3-0-6)

English language skills for critical reading from different sources and media and effective paragraph writing

**001207**

**English for Effective and Creative Communication 1**

Prerequisite: None

3(3-0-6)

Communication in English for developing life skills in the context of intercultural society, which includes reading, reflection, explanation, and oral presentation. Writing on the new media platforms. The developments of communication skills with integrity and credibility. The production of contents in effective and creative ways.

**001208**

**English for Effective and Creative Communication 2**

Prerequisite: 001207 or consent of the department

3(3-0-6)

Communication in English for developing professional and academic skills, which includes reading, reflection, explanation, and oral presentation. Writing on the new media platforms. The developments of communication skills with integrity. The production of professional and academic contents in effective and creative ways.

**001209**

**English for Professional and Academic Contexts**

Prerequisite: 001208 or consent of the department

3(3-0-6)

English for professional and academic contexts focusing on information evaluating and processing, and analytical and critical reading, writing, and speaking skills

## 1.2 ) Digital literacy

**204100**

**Artificial Intelligence and Digital Essentials**  
Prerequisite: None

3(3-0-6)

Computer in everyday life, computer network and internet, online essentials, online collaboration, office productivity software for modern life, information technology security, information literacy.

**261111**

**Internet and Online Community in the Age of AI**  
Prerequisite: None

3(3-0-6)

Basic knowledge of the Internet and online society in the age of artificial intelligence. Computer technology and the modern world. Selecting of online tools and services. Impact of the internet on daily life. Online business. Ethics in social networking. Legal aspects of the Internet and online community. Online safety and privacy. Generative AI and its application for work. The socially responsible use of artificial intelligence. Special topics and case studies of online society in the age of artificial intelligence.

**953111**

**Software for Everyday Life**  
Prerequisite: None

3(3-0-6)

Fundamentals of computer Hardware. Fundamentals of computer software. Fundamentals of computer network and internet. Information retrieval and online research. Computer security and digital privacy. Word processing software. Spread sheet software. Presentation software. Graphics editor software. Collaboration software. Fundamentals of generative artificial intelligence. Content creation using generative artificial intelligence. Tools for generative artificial intelligence. Ethical considerations for generative artificial intelligence.

## 1.3) Global Citizen

**140104**

**Citizenship**  
Prerequisite: None

3(3-0-6)

Meanings, definitions, and concepts involving citizenship. Creating awareness in surrounding problems at the local level, national level, and international level. Citizenship and learning, and existence in multicultural society and social diversity. Cultivation of positive attitude for peaceful conflict resolution. Political expression in the 21st century.

## 1.4) Creativity and Innovation

**603200**

**Packaging in Daily Life**  
Prerequisite: None

3(3-0-6)

Importance and function of packaging, packaging materials, natural materials for packaging, packaging form, packaging and design, packaging for advertising and marketing, packaging and environment, disposal of packaging waste, recycling of packaging, safety in packaging utilization and packaging development.

**610111**

**Packaging for Marketing**  
Prerequisite: None

3(3-0-6)

Packaging functions, transport packaging, retailed packaging, packaging design, label, brand identity, intelligent packaging and active packaging, packaging and environment, and modern technology in packaging.

## 1.4) Creativity and Innovation

**951100**

**Modern Life and Animation**  
Prerequisite: None

**3(3-0-6)**

Introduction to animation. History of animation and its evolution. Art and design for animation. Storytelling and character design for animation. Types of animation and animation process. Digital techniques for animation: computer programs and digital files, introduction to visual effects. Applying animation to things relating to daily life. Presenting and artwork.

## 1.5) Entrepreneurial Skills

**128100**

**Basic Good Governance in Administration**  
Prerequisite: None

**3(3-0-6)**

Meaning and concepts of good governance. The problem and the ethics development in government units. Good governance components and indicators of government units. Student morality and ethics. Case studies of good governance in government units. Student presentations.

**702101**

**Finance for Daily Life**  
Prerequisite: Non - Finance and Banking majors

**3(3-0-6)**

Basic knowledge of financial management for daily life. Wealth creation. Financial health evaluation. Financial planning. Income, expenses and debt management. Financial institution services. Savings. Letting the money work for you. Financial planning for life events. Risk insurance. Tax planning. Preparing for happiness.

**703103**

**Introduction to Entrepreneurship and Business**  
Prerequisite: None

**3(3-0-6)**

Entrepreneur role in economics development country Entrepreneur and business opportunities. The characteristic of entrepreneur and motivation factors, environment, types of business, forms of business, business plans, principle of management, marketing management, production management, financial management, accounting, taxation, business law, international business and business ethics for entrepreneur.

**888107**

**Business Startup on Digital Platform**  
Prerequisite: None

**3(3-0-6)**

Opening up the business idea on digital platform. Founder's motivation to startup business on digital platform. Seven techniques for startup design on digital platform. Discovering business potential on digital platform. "Function" versus "convention" concepts. Component concept. Working attitude. Startup execution on digital platform.

**888109**

**Introduction to Emerging Rules of Disruptive Technology in Trade**  
Prerequisite: None

**3(3-0-6)**

Impact of disruptive technology in trade. Disruptive technology: cloud computing, high-speed broadband, additive manufacturing (3D printing), Internet of Things (IoT). Global trade in goods and service: international laws relating to goods and service, customs and border security. Emerging rules of trade with disruptive technology: regulatory support of innovation, streamlined rules and regulations, cyber security. International case studies: Australia, Japan, US, Singapore, EU.

## 2) Elective Courses

<b>009103</b>	<b>Information Literacy and Information Presentation</b> Prerequisite: None; for non-majors only	<b>3(3-0-6)</b>
---------------	-----------------------------------------------------------------------------------------------------	-----------------

The definition and the importance of information and information literacy, information needs and information seeking, information sources and information services, information resources and organization, information searching, information evaluation, information presentation, citation and bibliography writing.

<b>888102</b>	<b>Big Data for Business</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	----------------------------------------------------	-----------------

Introduction to big data. Business problems and data science solutions. Basic tools for data mining. Predictive modelling. Clustering data. Decision analytic thinking. Visualizing model performance. Evidence and probabilities. Text mining.

<b>954101</b>	<b>Introduction to Modern Management and Information Technology</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	-------------------------------------------------------------------------------------------	-----------------

Modern management and information technology. Modern management. Planning. Organizing. Leading. Controlling. Modern strategies. Strategy formulation. Strategy implementation. Information technology. Information systems. Information systems for strategic advantages. Digital economy and society. Future trends of modern management and information technology.

<b>154104</b>	<b>Environmental Conservation</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	---------------------------------------------------------	-----------------

Environments, problems and conservation. Ecosystem. The concept of environmental conservation. Population, society and environment. The problems of environmental degradation. Management approaches for the problems of environment degradation. Environmental crises. Management approaches for environmental crises.

<b>176100</b>	<b>Introduction to Law</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	--------------------------------------------------	-----------------

Legal concepts. Legal Institutions. Law and its roles in society. Law and international societies. Law and local problems. Law and community rights. Roles of law in the rural and urban societies. Roles of law in the globalized era. Analyses of issues derived from case studies relating to law and modern world

<b>955115</b>	<b>Generative Artificial Intelligence for Digital Innovation</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	----------------------------------------------------------------------------------------	-----------------

Definition and importance of digital innovation. Creative working framework of digital innovation with generative artificial intelligence. Artificial intelligence literacy for digital innovation. Design thinking for digital innovation with generative artificial intelligence. Design thinking process for digital innovation. Generative artificial intelligence utilization for digital innovation. Applying art technique and design in digital innovation using generative artificial intelligence. Business management of digital innovation with generative artificial intelligence. Practical workflow of digital innovation with generative artificial intelligence. Entrepreneurship with digital innovation using generative artificial intelligence.

## (2) Field of Specialization

### 2.1 Core Courses

<b>126101</b>	<b>Introduction to International Relations</b> Prerequisite: None	<b>3(3-0-6)</b>
Origins and scope of International Relations. Emergence of the modern state system and concept of sovereignty. Evolution of international system: from Westphalia to Cold War. Post-Cold War international system and contemporary world politics. International Relations theories. Foreign policy and level of analysis. Actors in International Relations. International Political Economy. Globalization, poverty and international inequality. International security. Non-traditional security. Terrorism. Human rights and humanitarianism. International Relations and the environment. Selected and contemporary issues.		
<b>206171</b>	<b>General Mathematics 1</b> Prerequisite: None	<b>3(3-0-6)</b>
Matrices and systems of linear equations, linear programming, functions and graphs, limits and continuity of functions, the derivative, graph sketching and optimization.		
<b>208271</b>	<b>Elementary Statistics for Social Sciences 1</b> Prerequisite: None; for students in humanities and social sciences	<b>3(3-0-6)</b>
Statistical methodology, sampling techniques, data analysis, random variables and probability distributions, probability distribution of discrete random variables, probability distribution of continuous random variables, analysis of time series data.		
<b>208272</b>	<b>Elementary Statistics for Social Sciences 2</b> Prerequisite: 208271; for students in humanities and social sciences	<b>3(3-0-6)</b>
Basic principles of statistical inference, inference about population means, inference about population proportions, inference about population variances, analysis of variance, inference of regression and correlation coefficient, Chi-squared test, non-parametric test.		
<b>701100</b>	<b>Elementary Accounting 1</b> Prerequisite: None	<b>3(3-0-6)</b>
Introduction to accounting, basic accounting concepts and accounting framework. Ethics in the accounting profession and law related to accounting practices. Accounting cycle, transaction analysis and accounting principles for service business and merchandising business. Recording transaction general journal. Recording transaction in special journals. Leader and trial balance. Adjusting entries. Closing entry and financial statements preparation.		
<b>751306</b>	<b>Introduction to Communication in Economics</b> Prerequisite: ECON 301 (751301) and ECON 308 (751308)	<b>3(3-0-6)</b>
Reading comprehension to understand the main idea of economic analysis at varying levels of complexity. Efficient summarization and note-taking. Sourcing relevant economic data from experts through in-depth interviews and group discussions with various samples. Methodology for writing economic articles appropriate for different target audiences. Utilization of Generative AI in academic and professional work, oral presentation and poster presentation, creating presentation media and data visualization. Managing emotions and building confidence in presenting and answering questions, etiquette in being a listener and in exchanging opinions.		

<b>001210</b>	<b>Oral Expression 1</b> Prerequisite : 001101 or 001102 or e-Pro score of no less than B1; or consent of the department	<b>3(3-0-6)</b>
English oral communication in various daily life situations based on CEFR B1+		
<b>001230</b>	<b>Introduction to Language</b> Prerequisite: None	<b>3(3-0-6)</b>
Introduction to the study of language, analysis of the structure of language: sounds, words, sentences and meaning.		
<b>001231</b>	<b>English Phonetics</b> Prerequisite: 001230 or consent of the department	<b>3(3-0-6)</b>
A study of speech sounds, emphasizing English pronunciation and sound systems. Practical work in speech-sound production, perception and transcription.		
<b>001250</b>	<b>Introduction to Literature</b> Prerequisite: ENGL 102 (001102) or ENGL 118 (001118)	<b>3(3-0-6)</b>
An introduction to literary forms. Basic concepts, methods and terminology connected with each literary type. Intensive analytical reading of poetry, fiction and drama.		
<b>001281</b>	<b>English Language and Multicultures</b> Prerequisite: 001202 or 001222 or 001223 or 001224 or 001225 or 001226 or 001227 or 001228 or 001229 or consent of the department	<b>3(3-0-6)</b>
ENG: Concepts of language and cultures, English as a global language, English, media, and culture, English and cultural challenges, the future of English.		
<b>001310</b>	<b>Oral Expression 2</b> Prerequisite: 001210 or consent of the division	<b>3(3-0-6)</b>
English communication on various concrete and abstract topics based on CEFR B2.		
<b>204102</b>	<b>Intelligent Data Analysis: Survey of Techniques and Applications</b> Prerequisite: None	<b>3(3-0-6)</b>
Introduction to intelligent data analysis: from capture to sharing, tabular data analysis and visualization, text exploration and analysis, data stream processing for IoT applications, image detection and recognition, simulation with virtual reality and augmented reality, and problem-based learning in intelligent data analysis applications.		

<b>252180</b>	<b>Basic Renewable Energy</b> Prerequisite: None	<b>3(3-0-6)</b>
Renewable energy resources, renewable energy generation in Thailand, conventional and renewable energy generation technologies, energy storage technologies, renewable energy generation policies and regulations, potential assessment of renewable energy resources, economic evaluation of renewable energy, sustainable and environmental-friendly development.		
<b>703322</b>	<b>Communication for Business Results</b> Prerequisite: None	<b>3(3-0-6)</b>
Communication for innovative business development, company and team building, market analysis survey, competitive advantages and marketing mix. Communication for job skills, resume and cover letter writing and interviewing, problems discussion and solutions for social enterprises.		
<b>888111</b>	<b>Innovative Entrepreneurship Theory and Practice</b> Prerequisite: None	<b>3(3-0-6)</b>
Evolutionary development of innovative entrepreneurship. Financial preparation for innovative entrepreneurial ventures. Social entrepreneurship and the global environment for innovative entrepreneurship. Creativity and innovation. Marketing challenges for innovative entrepreneurial ventures. Ethical and socially-responsible innovative entrepreneurship. Effective innovative business plan development. Business pitching. Economics for innovative entrepreneurship. Creation and protection of intellectual property. Technology for innovative entrepreneurship.		
<b>888121</b>	<b>Digital Economy</b> Prerequisite: None	<b>3(3-0-6)</b>
Digital economy. Concept and theory in digital economy. Game theory in digital economy. Current issues in digital economy. Decision making process in digital economy. Case study. Group assignment and presentation.		
<b>888147</b>	<b>Innovation for Entrepreneur</b> Prerequisite: None	<b>3(3-0-6)</b>
Introduction to innovation for entrepreneur. Seeking for opportunities in business. Finding resources to startup new business. Assessing business startup idea.		
<b>954100</b>	<b>Information System for Organization Management</b> Prerequisite: None	<b>3(3-0-6)</b>
Introduction to organization management. Definition and principle of organization management. Organizational structure and change. Organizational culture and social networks. Leading in an organization and decision making. Organizational communication and managing groups and teams. Information technology used in an organization. Introduction to production system. Inbound and outbound logistics. Sales and marketing, and services. Introduction to digital business and service psychology. Information system for organization management. Guidelines for information technology development in organizations. Introduction to accounting in digital business. Introduction to business process modeling.		

## 2.2 Major Courses

### 2.2.1 Required Courses

<b>751101</b>	<b>Principles of Microeconomics</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	-----------------------------------------------------------	-----------------

Basic concept in microeconomics. Demand, supply, and equilibrium. Elasticity and its application. Consumers, producers, and the efficiency of markets. Externalities. Public goods and common resources.

<b>751102</b>	<b>Principles of Macroeconomics</b> Prerequisite: None	<b>3(3-0-6)</b>
---------------	-----------------------------------------------------------	-----------------

Introduction to macroeconomics. Measuring a nation's income. Measuring the cost of living. Production and growth. Saving, investment, and the financial system. Unemployment. The monetary system. Money growth and inflation. Open-economy, Macroeconomics: basic concepts, A macroeconomic theory of the open economy. Aggregate demand and aggregate supply. Monetary and fiscal policy. Inflation and unemployment. Income inequality and poverty.

<b>751209</b>	<b>Introduction to Mathematical Economics</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106); and MATH 171 (206171); or consent of the faculty	<b>3(3-0-6)</b>
---------------	---------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------

This course aims at furnishing the students of understand, as an introductory course, quantitative techniques of economics both in mathematical contexts and as an application to economic problems. It covers the nature of mathematical economics, economic models, types of economic functions, static (or equilibrium) analysis, comparative statics analysis. Maximal and minimal, differentials, dynamic analysis, matrix algebra, difference and differential equations.

<b>751301</b>	<b>Microeconomic Theory 1</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106); and MATH 171 (206171); or consent of the faculty	<b>3(3-0-6)</b>
---------------	-----------------------------------------------------------------------------------------------------------------------------------------	-----------------

Consumer behavior, demand, supply, market price, price elasticities, classical utility and consumer demand, indifferent-curve analysis and modern utility theory. Theory of the firm: firm and its decisions. Theory of production, choices of inputs and outputs, cost function and basic concepts of linear programming.

<b>751302</b>	<b>Microeconomic Theory 2</b> Prerequisite: ECON 301 (751301)	<b>3(3-0-6)</b>
---------------	------------------------------------------------------------------	-----------------

Price determination and policy in different forms of market. Competitive pricing, general equilibrium and economic welfare, monopoly pricing, price discrimination, pricing in imperfect competition and prices of factor of production.

<b>751304</b>	<b>Economic Statistics</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106); and STAT 271 (208271); or consent of the faculty	<b>3(3-0-6)</b>
---------------	--------------------------------------------------------------------------------------------------------------------------------------	-----------------

Introduction to economic statistics. Probability and marginal density functions. Estimation and inference methods and hypothesis testing from single data sets. Estimation and inference methods and hypothesis testing from two data sets. Experimental design and analysis of variance. Time series analysis. Nonparametric statistical tests. Index.

<b>751305</b>	<b>Econometrics 1</b> Prerequisite: MATH 172 (206172) and STAT 272 (208272) ; or ECON 304 (751304)	3(3-0-6)
Review of matrices and statistics and the natural of econometrics and economic data. Multiple regression analysis. Dummy in explanatory variables. Multicollinearity. Specification bias. Omitted variables. Redundant variables. Heteroskedasticity. Generalized least square method. Maximum likelihood estimation. Logit and probit model. AB testing. Order logit model. Multinomial logit model.		
<b>751308</b>	<b>Macroeconomic Theory 1</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106) or consent of the faculty	3(3-0-6)
National income concepts, Static and dynamic theories of determination of national income and employment and of business fluctuations.		
<b>751309</b>	<b>Macroeconomic Theory 2</b> Prerequisite: ECON 308 (751308)	3(3-0-6)
Fundamentals of Growth Economics. Problems of controlling economic activity Monetary and fiscal policies for promoting economic. Stability and growth.		
<b>751405</b>	<b>Theory of Economic Development</b> Prerequisite: ECON 308 (751308) ; or consent of the faculty	3(3-0-6)
Concepts and theories related to the problems of economic growth in both developed and developing countries. A general survey of economic development theories from the classical era up to present and the comparison and evaluation of those theories.		
<b>751407</b>	<b>Research Methods in Cooperative Education</b> Prerequisite: ECON 301 (751301) and ECON 304 (751304) and ECON 308 (751308) and enroll along with ECON 306 (751306) ; or consent of the faculty	3(3-0-6)
The hard and soft skills required for cooperative education include effective communication in organizations, etiquette for working with others, teamwork, adapting to and understanding roles and responsibilities at work, and basic methods of economic research in the workplace to solve problems and find facts. This involves defining the problem, formulating a hypothesis, research planning, methodology for data collection and analysis, preparing research reports, and presenting them correctly and appropriately.		
<b>751408</b>	<b>Research Methods in Economics</b> Prerequisite: ECON 301 (751301) and ECON 304 (751304) and ECON 308 (751308) and enroll along with ECON 306 (751306) ; or consent of the faculty	3(3-0-6)
Basic procedures and methods of research in economic are considered from the standpoint of their applicability to problem solving and discovering of new scientific facts and generalizations in economics. Definition of the problem, statement of hypothesis, research design, data collection methods and data analysis constitute the major topics. Attention is given to proper style and preparation research reports in economics. Grading will be given on satisfactory or unsatisfactory basis.		

<b>751409</b>	<b>Research Exercise in Current Economics Issues</b> Prerequisite: ECON 408 (751408)	<b>3(3-0-6)</b>
An individual research exercise on current economics issues under general guidance and supervision of instructor.		
<b>751414</b>	<b>Introduction to Applied Econometrics</b> Prerequisite: ECON 305 (751305)	<b>3(3-0-6)</b>
Economic data science. Integrating application programming interface (API). Web scraping. Text mining. Econometrics, and applied artificial intelligence for big data analysis. Data visualization.		
<b>751449</b>	<b>Cooperative Education</b> Prerequisite: ECON 407 (751407)	<b>3(3-0-6)</b>
Students are required to work in the organizations related to economics major for a minimum period of 16 weeks as a staff under the supervision of in-charge trainer(s) of the organizations and instructor(s) of the university.		

## 2.2 Major Courses

### 2.2.2 Major Electives

<b>751326</b>	<b>ASEAN Economy in the Global Economic Context</b> Prerequisite: ECON 100 (751100) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
---------------	----------------------------------------------------------------------------------------------------------------------------------	-----------------

Introduction of the structure of the integration of the countries in the region. Structure of ASEAN and challenges of ASEAN Economic Community (AEC). Economic structure of ASEAN's member countries and ASEAN. Linkages of logistic, commercial and financial interests of the countries of ASEAN countries and others. Roles of ASEAN integration in trade and investment aspects. Context of normative and legal issues and problems of ASEAN in economic, trade, financial, social, political, and cultural aspects related to Thailand's roles in ASEAN platform. Obstacles and challenges of ASEAN integration and ASEAN economic policy in the future. Case study of current issues of ASEAN countries.

<b>751402</b>	<b>Green economy</b> Prerequisite: ECON 301 (751301) and ECON 308 (751308)	<b>3(3-0-6)</b>
---------------	-------------------------------------------------------------------------------	-----------------

The concept of green economics and direction of green economy. Science of sustainability. Enabling conditions for green transition. Case studies of green economy in practice in key economic sectors such as agriculture, forestry and fisheries, industry, and services. Green production and consumption, green growth, and opportunity and challenges in for green development.

<b>751442</b>	<b>Regional Economics</b> Prerequisite: ECON 302 (751202)	<b>3(3-0-6)</b>
---------------	--------------------------------------------------------------	-----------------

Regional economic theories, interregional trade and factor mobility regional economic growth, regional economic analysis techniques, and regional planning.

<b>751446</b>	<b>Economy of Thailand</b> Prerequisite: ECON 301 (751301) and ECON 308 (751308)	<b>3(3-0-6)</b>
---------------	-------------------------------------------------------------------------------------	-----------------

A study of the structure of the Thai economy in the past and at present. Analysis of the use of resources in production; expenditure on consumption and investment; foreign trade; economic and social development, economic stabilization; including major economic problems.

<b>751454</b>	<b>Behavioral Economics</b> Prerequisite: ECON 301 (751301) for major ; or consent of the faculty for non-major	<b>3(3-0-6)</b>
---------------	--------------------------------------------------------------------------------------------------------------------	-----------------

The concepts of rationality in mainstream economics as well as the history of behavioral economics concepts by discussing concepts and theories of behavioral economics, such as prospect theory, mental accounting, and heuristic bias, emotions, decision-making, self-control, social norms, experimental games, motivation, dishonest behavior, framing effect, behavioral economics on happiness, and also guideline for behavioral policy design under the concept of Nudge and Boost.

<b>751202</b>	<b>History of Economic Thought</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106) or consent of the faculty	<b>3(3-0-6)</b>
---------------	----------------------------------------------------------------------------------------------------------------------	-----------------

A survey of economic thoughts from ancient days through contemporary economics. Biblical times, Greek and Roman, English-French-German. Mercantilism, Physiocrats and their doctrine. Philosophers, disciples, influence and criticism of Classical Economics, Marginal utility Economics. Ideal an scientific of Socialism, Keynesian Economics, Business cycle theorist, price theorist, the old and new Welfare Economics.

<b>751220</b>	<b>Economic History</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Development of European agriculture, industry, finance and international trade since 1750: growth of U.S. economy. A historical survey of the economic growth of some major Asian countries, and Thailand, with emphasis on the development of agriculture, industry, finance and international trade.		
<b>751303</b>	<b>Public Finance</b> Prerequisite: ECON 301 (751301)	<b>3(3-0-6)</b>
Revenue and expenditure activities of government. It deals with budgets, taxes, government expenditures and public debts. Effects of budgets on the economy, particularly the effects on the achievements of the major economic objectives; growth, stability, equity and efficiency.		
<b>751311</b>	<b>Economics of Artificial Intelligence</b> Prerequisite: None	<b>3(3-0-6)</b>
Understanding Artificial Intelligence (AI) as an economic force. Data as an economic resource. AI-driven market and consumer behavior. AI and productivity transformation. Labor market and future skills. Public policy and ethical issues in AI. AI for inclusive growth. AI for sustainability and local development. AI economic impact mapping.		
<b>751319</b>	<b>Economics of Social Enterprise Development</b> Prerequisite: ECON 101 or 102 or 106 (751101,751102,751106)	<b>3(3-0-6)</b>
Introduction to social entrepreneurship. Social enterprise models. Theory of change. Measuring economic and social impact. Business models for social enterprises. Resource mobilization and management. Innovation and design thinking in social entrepreneurship. Scaling social innovations. Ethical and cultural considerations. Policy and ecosystem support.		
<b>751320</b>	<b>International Business Economics</b> Prerequisite: ECON 308 (751308)	<b>3(3-0-6)</b>
Principle of international business economics. International business strategies in current economic situations. The US, EU, Chinese, Japanese, Russian and Middle East markets, cultures and consumers' behaviors. Import regulations and products-standards. Markets-entries. Political economy between the US, EU, China, Japan, Russia, Middle East and major countries such as India, Korea and others that affect international business.		
<b>751321</b>	<b>Community Economic Development</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Conceptual frame work of community economic development including the study of the past and present economic structures of Thailand, the sustainable development, the community economic development, the development of community economic development in Thailand, impacts of globalization and community adjustment.		
<b>751322</b>	<b>International Political Economy</b> Prerequisite: ECON 202 (751202)	<b>3(3-0-6)</b>
Political economy between the Middle East, US, and Europe. The ongoing wars: Seizure of natural resources. Strategic, economic and political alliances. Analysis of integrated impacts of the international political economy on global and Thai economies; applied strategies.		
<b>751323</b>	<b>Modern Chinese Economy</b> Prerequisite: Third year standing	<b>3(3-0-6)</b>
Understanding modern China: The historical turning points. Reform and economic development. Business opportunities and joint-venture potentials in China: Successful case studies. Building brands and niche products for Chinese markets.		

<b>751324</b>	<b>Modern Indian Economy in the Global Context</b> Prerequisite: ECON 100 (751100) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
<p>Concept, structure, and Indian economy's chronological development and trend. The main topics are introduction of the traditional Indian economy, population and human capital development, economic reforms in agriculture, contribution of economic reform to growth, poverty, and inequality, Indian's macro economy, monetary policy and fiscal policy, role of the government, money and capital markets, foreign trade and investments, international and regional comparisons and cooperation, and current issues in the Indian's modern economy.</p>		
<b>751325</b>	<b>American Marketing Economics</b> Prerequisite: Third year standing	<b>3(3-0-6)</b>
<p>American Marketing Economics: Cultures and consumers' behaviors. Practical analysis of the middle and high-end consumers. Empirical analysis of particular American markets. Tailoring products for American markets. Import regulations and products-standards. Markets-entries and strategies for various businesses.</p>		
<b>751327</b>	<b>ICT Economics and Telecommunications Policy</b> Prerequisite: ECON 301 (751301)	<b>3(3-0-6)</b>
<p>Economic, sociological and psychological aspects of consumer behavior, in reference to the latest trend in telecommunication, information and communication markets and technologies. Business orientations in such a rapidly changing area as telecommunication services and ICT. The goal of this course is to acquire theoretical foundations and some application abilities for analyzing consumer's behavior in the face of the emergence and diffusion of new services such as ICT and innovation as well as introducing telecommunication policies and regulations.</p>		
<b>751328</b>	<b>Economics of Environmental Management</b> Prerequisite: ECON 301 (751301) for econ major or consent of the faculty for non econ majors	<b>3(3-0-6)</b>
<p>Introduces the principles and applications of environmental economics. It explores the economic analysis of environmental issues, including the evaluation of environmental policies, the non-market valuation of natural resources focusing on stated and revealed preference methods, and the economic aspects of sustainability. This course also covers the economics of pollution control and investigates the market and policy of waste management. It further examines the role of market forces and government interventions in addressing environmental challenges.</p>		
<b>751330</b>	<b>Money and Banking</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106) or consent of the faculty	<b>3(3-0-6)</b>
<p>The nature and function of money and finance; the role of money, kinds of money, monetary standards, debt, credit and finance instruments, finance, intermediaries, Commercial banking system and policy. The role of central bank, central banking system of the U.S.A., U.K. and Thailand. Instruments of monetary policy. Monetary policy and fiscal policy. Money market and capital market. Credit market in Thailand.</p>		
<b>751332</b>	<b>Monetary Theory</b> Prerequisite: ECON 308 (751308)	<b>3(3-0-6)</b>
<p>Meaning, changes, measurement and importance of changes of the value of money. The early and improved Quantity Theory, the equation of exchange and the demand for money. Rate of interest, loanable funds and liquidity preference theory. Keynes' Monetary Theory, money market and IS LM curves, money and industrial fluctuations, monetary policy and its practice.</p>		
<b>751333</b>	<b>Applied Game Theory for Economic Analysis</b> Prerequisite: ECON 100 (751100) or ECON 101 (751101) or ECON 106 (751106)	<b>3(3-0-6)</b>
<p>Foundations of game theory, information and uncertainty in games, market mechanisms and bargaining, industrial organization and business strategy, public goods and social dilemmas, voting and social choice, conflict and cooperation in international relations, emerging topics in applied game theory.</p>		

<b>751335</b>	<b>Behavioral Economics in Finance and Investment</b> Prerequisite: ECON 100 (751100) or ECON 101 (751101) or ECON 106 (751106)	<b>3(3-0-6)</b>
Introduction to behavioral economics. Sociological, neurological and psychological concepts to financial and investment decision making. Risk perception and risk acceptance in the context of investment economics. The impact of loss aversion and framing effects on investment decisions in behavioral economics. Prospect theory and its influence on investment decision-making in economics. Cognitive biases and their effects on financial markets in economics. Economic bubbles and market collapse mechanisms. Financial and investment advisors and their impact on investor behavior in economics. The economics of happiness. Case studies in behavioral economics of finance and investment: implications for investor decision-making.		
<b>751340</b>	<b>Introduction to Agricultural Economics</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
General ideas in agricultural economics; land capital labor and management. Present farm management in Thailand. Land tenure, systems and types of farming, farm organization and management. Agricultural credit. Demand, supply and marketing of agricultural products. Problems in agricultural economics.		
<b>751343</b>	<b>Economic Analysis of Energy and Resource Markets</b> Prerequisite: MATH 172 (206172) or MATH 162 (206162) ; ECON100 (751100) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Fundamental concepts of production economics, market structures, applications of game theory and principles of nonrenewable resources. Economic analysis modeling of policy and planning issues in energy and nonrenewable resource markets.		
<b>751345</b>	<b>Transportation Economics</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Transportation and economy, scope of transportation economy, transport location, transportation efficiency, land rent and transportation, transportation consideration, importance of transportation.		
<b>751346</b>	<b>Real Estate Economics</b> Prerequisite: ECON 101 or 102 or 106 (751101,751102,751106)	<b>3(3-0-6)</b>
Introduction: the importance of the real estate industry in the economic system and its impact on GDP. John Maynard Keynes' theory and its application to the real estate industry. Unemployment issues and the limitations of the free market mechanism in the real estate sector. Demand and supply in the real estate market and economic equilibrium. The role of government and fiscal policy in the real estate industry. Government measures and incentives affecting consumer behavior in the housing market. Case study: infrastructure development and its impact on the real estate industry. Analysis of thailand's economic conditions and equilibrium in the real estate market. Workshop: simulation of the impact of government policies on demand and supply in the housing market – the behavioral dimension of investment. Presentation and discussion of a case study: "the impact of macroeconomic factors on the real estate market".		
<b>751348</b>	<b>Social Return on Investment Assessment</b> Prerequisite: ECON 100 (751100) or ECON 101 (751101) or ECON 106 (751106)	<b>3(3-0-6)</b>
The basic concepts and theories related to the assessment of social returns as well as the principles of social return on investment assessment, utilization of tools and techniques for social return on investment assessment, key performance metrics used in social return on investment assessment, significant social factors affecting social return on investment assessment, methods of presentation and report writing, case study and project selection, and presentation of assessment results.		

<b>751349</b>	<b>Space Economy</b> Prerequisite: ECON 100 (751100) or ECON 101 (751101) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Introduction and overview of the space economy, development of the space economy, space technologies, space markets, and ecosystems, infrastructure in the space economy and space-based services, the role of government and policy in the space economy, the role of international cooperation in developing space infrastructure and resource allocation in space, private sector involvement and space entrepreneurship, the role of space technology in economic growth, legal and ethical considerations in the space economy, analysis of factors affecting the feasibility of space-related projects, case studies on evaluation of factors influencing investment decisions and preliminary feasibility assessment, and feasibility reports for space projects.		
<b>751403</b>	<b>Econometrics 2</b> Prerequisite: ECON 305 (751305)	<b>3(3-0-6)</b>
Stationary and non-Stationary data. Autocorrelation. Autoregressive model. ARCH /GARCH Model. Cointegration and error correction model. Vector autoregressive regression. Vector error correction model. Panel model. Instrumental variables estimator. Non-random variable model.		
<b>751401</b>	<b>International Economics</b> Prerequisite: ECON 301 (751301) and ECON 308 (751308) ; or consent of the faculty	<b>3(3-0-6)</b>
This course is intended to provide general concepts and theories of international trade, and related problems. Pure and monetary aspect of international theories. International migration of factors of production: labor and capital movement and the effect of factor migration. Economic integration among developing countries.		
<b>751411</b>	<b>The Economics of European Economic Integration</b> Prerequisite: ECON 401 (751401)	<b>3(3-0-6)</b>
Theoretical analysis of economic integration and review of relevant economic policies such as trade, agricultural, industrial, monetary and fiscal policies of the European Union. Impact of the integration on external relations with other countries.		
<b>751413</b>	<b>Introduction to Input-Output Analysis</b> Prerequisite: ECON 209 (751209)	<b>3(3-0-6)</b>
Concepts of Input-Output analysis and the applications of this technique to national economy. Methods and problems of constructing and Input-Output table.		
<b>751417</b>	<b>Managerial Economics</b> Prerequisite: 751209 and 751302; and 208271 or 751304	<b>3(3-0-6)</b>
The decision-making process involving the economic activities of a firm. These activities include: optimization techniques, demand analysis and forecasting, production and cost analysis, market structures and pricing, risk analysis and long-run planning, government policy and regulations, and the international economy.		
<b>751418</b>	<b>Business Cycle Theory</b> Prerequisite: ECON 308 (751308)	<b>3(3-0-6)</b>
Theories and concepts of business cycle, including an analytical survey of the history and nature of cyclical economic fluctuations, policies of economic stabilization. Relationship between business cycle theories and economic growth theory.		

<b>751419</b>	<b>Economic Theory and Entrepreneurship</b> Prerequisite: Third year standing	<b>3(3-0-6)</b>
General concepts of economic theory and entrepreneurship. Behavior and characteristics of entrepreneurs. Creation of new ideas in doing business for potential entrepreneurs. Entrepreneurial opportunities in small and medium enterprises (SMEs). Case studies of entrepreneurial success in progress.		
<b>751420</b>	<b>International Finance</b> Prerequisite: ECON 401 (751401)	<b>3(3-0-6)</b>
Financial policies to maintain a monetary equilibrium in its foreign transactions. Choice among exchange rate regimes as the first step in making international policy. Free exchange rate and fixed exchange rate will be closely studied. The comparison study of internal equilibrium and external equilibrium; full employment at home or payments equilibrium.		
<b>751421</b>	<b>Economics of Investment</b> Prerequisite: Third year standing	<b>3(3-0-6)</b>
Investment decision and economic variables. Uncertainty and decision making. Sources of information on investments. Introduction to security valuation using economic theory. Industry analysis using economic theory. Company analysis using economic theory. Bond market. Introduction to bond valuation. Introduction to financial derivatives and economic theory. Introduction to foreign exchange markets. Analysis of foreign exchange rates using economic theory. Application of financial derivatives and capital markets. Due diligence and initial public offerings. Mergers and acquisitions.		
<b>751422</b>	<b>Technical Analysis for Investment</b> Prerequisite: Third year standing	<b>3(3-0-6)</b>
Dow theory. Basic concept of trends. Major reversal patterns. Moving averages. Relative strength index. Moving average convergence and divergence. Stochastics. Oscillator. Momentum.		
<b>751424</b>	<b>Economic Development of Developing Countries</b> Prerequisite: ECON 308 (751308)	<b>3(3-0-6)</b>
Basic characteristics of poor countries; obstacles to development; general requirements for development. Domestic policy issues; prospect for development and some topics for case studies.		
<b>751425</b>	<b>Economic Growth</b> Prerequisite: ECON209 (751209) and ECON 302 (751302) and ECON 309 (751309)	<b>3(3-0-6)</b>
Stylized facts related to economic growth, including the study of concepts and modern theories of economic growth, wealth accumulation and capital mobility, technological progress and economic growth, education and economic growth, and endogenous growth.		
<b>751427</b>	<b>Economic Planning</b> Prerequisite: ECON 309 (751309)	<b>3(3-0-6)</b>
Types, methods and applications of planning. Concepts and significance of economic planning as relevant to economic development. Economic planning of Thailand. A survey of different approaches to economic planning in some other countries.		
<b>751428</b>	<b>Political Economy</b> Prerequisite: ECON 100 (751100) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Fundamental concepts, structures, and system of political Economy. Political economic interpretation of authoritarianism , individualism, socialism, nationalism, and ethics. Thai economic system from political economic perspective. Political economic power concentration in Thai economic development and problems.		

<b>751433</b>	<b>Economics of Regulation</b> Prerequisite: ECON 301 (751301)	<b>3(3-0-6)</b>
Introduction, general theories and necessity of regulation. Fundamental principles, the role of law, and institutions in regulation. Economics of market failure and addressing market gaps. Antitrust and the regulation of market power. Regulation and game theory: strategic behavior and decision making. Regulation of state intervention, subsidisation, and industrial policies. An overview of development institutions. Public policies for innovation, technology, and regulation. Regulation of digital markets: platforms, AI, and data governance, Political economy, evaluation, and deregulation.		
<b>751437</b>	<b>Tax System</b> Prerequisite: ECON102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Principles and purpose of taxation. The effect of taxation upon the economy, tax base and tax rate. The shifting and incidence of taxation. Principles which regulate the incidence of taxes. Principles of some major taxes. Tax system of Thailand. The relationship of taxation and economic development. Taxation and economic stabilization. Problems of taxation of developing countries. Tax as an instrument for fiscal policy.		
<b>751440</b>	<b>Labor Economics</b> Prerequisite: ECON 301 (751301)	<b>3(3-0-6)</b>
Introduction to labor economics, labor supply, labor demand, labor market equilibrium, wage structure, labor mobility, labor union, unemployment, labor policies and special topics in labor economics.		
<b>751441</b>	<b>Economics of Water Resources</b> Prerequisite: ECON 209 (751209) and ECON 302 (751302) ; for major or by consent of the faculty for non major	<b>3(3-0-6)</b>
The importance of water resources to the economy, an allocation of water resources for agricultural, municipal, industrial and environmental purposes, Roles of price mechanism and social institutions in water allocation, cost-benefit analysis, advantages in water resource development project, pollution and wastewater management, impacts of climate change on water resource managements, models of demand for surface and groundwater, river basins and watershed management and case studies.		
<b>751443</b>	<b>Industrial Economics</b> Prerequisite: ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Nature and scope of the process of industrialization, the patterns of industrial growth the structure and functioning of industries and industrial relation, location of industries.		
<b>751444</b>	<b>Urban Economics</b> Prerequisite: ECON 302 (751302)	<b>3(3-0-6)</b>
Economic analysis of urban location, land-use, and economic growth. Problems of urban transportation, public finance, housing, poverty and environmental quality. Urban economic planning.		
<b>751445</b>	<b>Natural Resource Allocation and Policy</b> Prerequisite: ECON 302 (751302)	<b>3(3-0-6)</b>
Policy analysis and allocation of natural resources to serve the target of national economic and social development.		
<b>751447</b>	<b>Seminar in Current Economic Problems</b> Prerequisite: third year standing; for Economics students only	<b>3(3-0-6)</b>
A general survey of current economic problems affecting economic progress and stability with special emphasis on Thailand.		

<b>751448</b>	<b>Seminar in Global Investment Issues</b> Prerequisite: ECON421 (751421) and ECON422 (751422)	<b>3(3-0-6)</b>
Global investment issues are presented, analyzed, and discussed.		
<b>751451</b>	<b>Health Economics</b> Prerequisite: ECON 301 (751301) and ECON 308 (751308)	<b>3(3-0-6)</b>
Basic concepts in health economics, public goods, externalities and health care services. Demand for and supply of health care, the economic evaluation of health programs. Technical efficiency, economic efficiency and cost of health care services. Resource allocation in health sector and the development of health. Health insurance, health care delivery system and analysis of health problems in Thailand.		
<b>751452</b>	<b>Economics of Climate Change</b> Prerequisite: ECON 301 (751301) for major; or consent of the faculty for non-major	<b>3(3-0-6)</b>
Global climate change, greenhouse gas emissions, and market failures. Economic tools to control greenhouse gas emissions such as carbon tax, carbon credit market, and measures to promote climate-friendly investment. Multilateral negotiation on climate change. Impact analysis of greenhouse gas reduction measures on international trade, investment, and economic growth.		
<b>751453</b>	<b>Developing Application for Data Analytics in Economics</b> Prerequisite: ECON 305 (751305)	<b>3(3-0-6)</b>
Review of basic econometrics and statistics. Introduction to R program language. Building a user interface. Building a user server. Application and graphic design. Developing application for analyzing economic and financial data. Publishing application on online platform.		
<b>751455</b>	<b>Economics of the Welfare State</b> Prerequisite: ECON 100 (751100) or ECON 102 (751102) or ECON 106 (751106)	<b>3(3-0-6)</b>
Definition, sources and patterns of welfare programs. Definition of Welfare State regimes. Theory of social justice and the State intervention. Economic theories and the State intervention. Economic theories and social risk management. Institutional economics and the path dependence. Comparative welfare state analysis: Europe VS Asia. Welfare state and impact on economy and society.		
<b>751464</b>	<b>Behavioral Economics in Organizational Finance</b> Prerequisite: ECON 100 (751100) or ECON 101 (751101) or ECON 106 (751106)	<b>3(3-0-6)</b>
Behavioral foundations. Introduction to behavioral analysis. Behavioral valuation. Behavioral capital budgeting. Inefficient markets and behavioral corporate decisions. Perceptions of risk and return. Behavioral capital structure. Behavioral dividend policy. Financial management and group decision-making processes. Behavioral aspects of investments.		
<b>751465</b>	<b>Low-altitude Economics</b> Prerequisite: ECON 102 (751102); For major ECON 100 or 102 (751100, 751102); For non-majors ECON 106 (751106); For non-majors/ international Program	<b>3(3-0-6)</b>
Introduction to the low-altitude economy. Physical and digital infrastructure for low-altitude aviation. Low-altitude airspace traffic management systems. Unmanned aerial vehicle (UAV) technologies and commercial applications. Electric vertical take-off and landing (eVTOL) aircraft and the future of urban air mobility (UAM). Safety and maintenance. Practical case studies and technological integration in the low-altitude economy. International aviation law and governance. Privacy, security, and environmental impacts. Low-altitude logistics and air transportation. Smart agriculture and infrastructure inspection. Emergency services and public safety. Business model design and cost-benefit analysis. Final group project presentations.		

<b>751471</b>	<b>Economics of Decentralized Finance</b> Prerequisite: 751101 or 751106	<b>3(3-0-6)</b>
<p>The mechanism of blockchain, smart contract, the mechanism and types of Crypto currencies and token exchange, the mechanism of governance token and yield farming or liquidity provider, the mechanism of stable coin and synthetic asset token, DeFi (Decentralized Finance) related businesses such as auto-compound farming business, leverage farming business, lending and borrowing business, insurance business, dashboard business, portfolio management business, decentralized multi-chain fund management business and launchpad business, the mechanism of Non-Fungible Token (NFT), NFT related businesses such as GameFi and gambling.</p>		
<b>751472</b>	<b>Economics of Tokenomics and Non-Fungible Token</b> Prerequisite: ECON101 (751101) or ECON 106 (751106)	<b>3(3-0-6)</b>
<p>Concepts of tokenomics and non-fungible token (NFT). How arts, music and other industries associate with non- fungible token and how to improve their values. Exploring non- fungible token marketplaces. Tokenomics of GameFi and Metaverse and GameFi investment strategies. Success and failure cases of GameFi.</p>
